Job Title: Full Stack Developer Intern- MERN

Job Description:

Looking for a dynamic Full stack Developer Intern to support Frontend: React.js, HTML5, CSS3, JavaScript (ES6+), Backend: Node.js, Express.js, Database: MySQL (structured queries, joins, schema design), Version Control: Git/GitHub

Other Tools: Postman, VS Code, npm/yarn.

Key Responsibilities:

- Develop and maintain responsive web applications using React.js
- Collaborate with backend developers to integrate APIs and ensure seamless UI/UX
- Write clean, reusable, and well-documented code
- Optimize frontend performance and improve application speed
- Create and interact with RESTful APIs using Express and Node.js
- Write efficient MySQL queries and assist with database integration
- Participate in code reviews, stand-ups, and project planning discussions
- Debug and troubleshoot issues across the full stack

Requirements:

- Strong foundation in React.js and frontend development
- Familiarity with Node.js and Express.js
- Basic experience with MySQL – writing queries, managing tables
- Understanding of REST APIs and how to consume them
- Knowledge of version control systems (Git)
- Ability to work independently and manage time effectively
- Good communication and problem-solving skills
